WICHITA AND LITTLE ROCK.

Henry Wood, the manager of the Little Rock and Ft. Smith railway, from Ft. Smith to Arkansas City, and for which congress granted a right of way during the last session, was in the city yesterday. Mr. Wood had not been in the city since last fall, and of course was not long in taking in the fact of the great progress made by this city. Last of the great progress made by this city. Last fall the editor of this paper used his best powers in trying to convince Mr. Wood of what was coming. We wanted his road then 2000 and want it now. The only difference between us at that time was the naming of Wichita in the charter and right of way bill. Of course Wichita's lines will intersect his road at many points should it be extended in any other direction through southern Kunsas but the matter of transfer charges would come in, so that we would rather have the extension direct or independent. In such a tween us at that time was the naming of 3100 project he could count on Wichita's hearty co-operation.

Mr. Wood, who spent an hour or two in consultation with a few of our representative citizens last evening, which talk was
most satisfactory, said that his engineers
would reach the south line of our state within a day or two, probably teday. His road
will put Wichita as near Memphis, the lower
Mississippi and New Orleans as is Kansas
